

Recent Activities EED

Activities (2014-2015)

1. National Seminar on "Solar Power Plant for Residential, Commercial Utility and Off-grid Applications - SPRCOA 2014" held on 17th -18th, December 2014, organized by Industrial Power Group in association with IEEE PES NITC chapter.

Activities (2015-2016)

1. Workshop on Advanced Latex held on 14th March 2015, organized by Industrial Power Group in association with IEEE PES NITC Chapter.
2. Workshop on Advanced Latex held on 14th March 2015, organized by Industrial Power Group in association with IEEE PES NITC Chapter.
3. Workshop on Advanced Latex held on 14th March 2015, organized by Industrial Power Group in association with IEEE PES NITC Chapter.
4. National workshop on "ELECTRIC POWER QUALITY", March 11-12, 2016 organized by Industrial Power Group Department of Electrical Engineering in association with IEEE Power and Energy Society, NITC Chapter.
5. IEEE PES chapter NITC in association with IEEE Kerala chapter has organized a cluster meeting with KSEB Ltd on 12th March, 2016.
6. Workshop on Advanced Latex held on 20th April, 2016, organized by Industrial Power Group in association with IEEE PES NITC Chapter.
7. National workshop on Xilinx Vivado based FPGA design and Zynq architecture held on 3rd -4th September, 2016, organized by Industrial Power Group in association with IEEE PES NITC Chapter.

8. An Invited talk by Prof. Thukaram on Congestion management in deregulated power systems using concepts of relative electrical distance and virtual power flow was held on 21st Sept 2016 organized by Electrical Engineering Association.
9. An expert talk on “Distributed Control System with Advanced Communication Protocol in Industrial Process Automation” was delivered by Yokogawa India on 3rd November 2016, organized by Electrical Engineering association with Industrial Power Group EED.

Activities (2016-2017)

1. Expert technical talk delivered by Kalki Tech Bangalore on “Seamless Integration across sub-systems in Power / Industrial Automation” was organized by Electrical Engineering Association on 11th Jan 2017.
2. National workshop on MATLAB and its Applications to be held on 7th - 9th March, 2017, organized by IEEE PES NITC Chapter in association with Industrial Power Group.
3. Expert talk on Internet of Things (IoT) and Smart Grid will be organized by Electrical Engineering Association on 14th March 2017.
4. Expert talk on Electric vehicles and their control strategies by Bosh India to be held on 22nd March 2017, organized by IEEE PES NITC Chapter in association with Industrial Power Group.
5. Two-day National seminar on System Reliability and Thermography to be held on 7th -8th April 2017, organized by IEEE PES NITC Chapter in association with Industrial Power Group.
